

SABANCI UNIVERSITY

S E A R C H C O N F E R E N C E

18-20 AUGUST 1995, ISTANBUL

PARTICIPANTS

We are grateful to the Sabancı University Search Conference participants coming from all around the world to assist us in future design of an "ideal" university. With your invaluable contributions, we hope to arrive at the shared wisdom which shall guide us in formulating the "mission" of the Sabancı University.

Thank you for sharing our excitement and accepting our invitation to attend the Search Conference.

Güler Sabancı

*Güler Sabancı
Chairperson*

WORDS:

2810012

2811099 (direk)

All participants are listed in alphabetical order.

Sanjoy K. Mitter

Co-Director

Laboratory for Information and Decision Systems
Massachusetts Institute of Technology

Dr. Mitter's research has spanned the broad areas of systems, communication, and control. He holds the position of Director of the Center for Intelligent Control Systems -an inter-university center for research on the foundations of intelligent systems. Besides, Dr. Mitter serves on the editorial board of some academic journals and books series. Signal Processing Theory, Representation and Control Of Infinite Dimensional Systems (Volume 1-2), are among the books he edited. His works have appeared in various journals such as Transactions on Information Theory, Geometry-Driven Diffusion in Computer Vision, Acoustic Signal Processing for Ocean Exploration, etc.

Banu Onaral

Professor
Electrical and Computer Engineering Department
Drexel University

Dr. Onaral's research interests evolve around the areas of signals and systems engineering (digital signal processing and telecommunications, biomedical signals and systems), scaling dynamics and wavelets in signals and systems engineering. Besides her academic positions, she holds consulting position for clinical, research and industrial laboratories. She currently serves on the advisory boards and strategic planning bodies of several universities and on the proposal review panels and study sections of several funding agencies. Her recent publications have appeared in various journals such as CRC Biomedical Engineering Handbook, IEEE Transactions on Circuits and Systems-I, IEEE Trans. on Education, ASEE Prism, etc.
