

READ & PUBLISH (TRANSFORMATIVE) AGREEMENTS PART-III

Wiley

With the "Read and Publish" agreement made between TÜBİTAK ULAKBİM and Wiley, all universities in Turkey will be able to access approximately 1400 Wiley e-journals between 2023 and 2025. In addition, it will be possible to publish Open Access articles of the Research Article, Review Article, Data Article and Rapid Publications types that have been accepted in Wiley Hybrid and Gold journals (except Hindawi) in Q1 and Q2 group journals, without paying any APC.

You can find details about the agreement on [this page](#).

You can find the list of content suitable for Read and Publish [here](#).

We also have other Read & Publish agreements. Details can be found in the "Open Access-Publisher Agreements" section of the IC website.*

Institute of Physics (IOP)

ANKOS has a transformative agreement with the IOP to enable a transition to open access publishing.

You can access the journals included in the agreement via [this link](#).

You can access the author guide [here](#).

Springer Nature

A "Read & Publish" agreement was signed between TÜBİTAK-ULAKBİM and Springer Nature as of January 1, 2024, covering the period 2024-2026.

Article types eligible under this agreement are Original Paper, Review Paper, Brief Communication, Continuing Education. The agreement covers only Springer hybrid journals in Q1 and Q2 of Web of Science.

You can find detailed information about the agreement and the list of journals included in the scope [here](#).
